HE'LL TAKE 164-FOOT PLUNGE IN A BARREL; THRILLS HOBBY OF MAN WHO'LL SHOOT NIAGARA

Invents His Own Barrel; Says He'll Come Out of the Foam Smiling

BY MILTON BRONNER
European Manager, N. E. A.
BOSTON, June 27.—"I'll be done in it!"

This was the cheery greeting given me by a smiling middle-aged man who was lying prone in a big barrel. He was reclining for me now he would look when he attempted to shoot the dangerous waters of Niagara. His greeting was he hoped, prophetic of what he would say to Americans and Canadians when they caught the barrel down below in the rapids and opened it up.

Loves to Defy Death. I can't imagine a man who looks less like a dare-devil than Charles George Stephens, barber of Bristol. And yet this mild-voiced, gray-eyed, gray-haired man of 38, has often delighted to flirt with death and get away with it.

He is confident he will get away with it in July when he shoots Niagara, and so are his wife and his nine children.

Between jobs of running an barber shop and rearing a big family, Stephens found time to make dangerous balloon ascensions and equally dangerous parachute descents.

A SCENE AT NIAGARA FALLS AND THE BARREL STEPHENS WILL USE WHEN HE ATTEMPTS TO SHOOT THE GREAT WATER WALL

C. G. STEPHENS

The barrel in which he is going to shoot Niagara is his own invention. It is made of best Russian oak and is six feet one inch long and two feet 7 1/2 inches in diameter. There are 10 steel hoops around it.

On the inside it has a three-inch padding of best horse hair. Also on the inside there are sets of straps which Stephens will adjust to his body and with which he hopes to avoid any tremendous jars when the barrel leaps over the edge of the falls and bounds to the depths below.

He will have with him in the barrel an electric lamp, charged so that it will burn for eight hours. In case anything happens to it, he will have with him a smaller hand electric lamp. In one corner there is a contrivance which will take up the carbonic acid gas which will come from his lungs. He will also have a gas mask contrivance through which he will breathe fresh oxygen from a tank which has an eight hours' supply. He does not expect to take any food or drink with him.

Built for Comfort. The barrel is entered through a rather narrow aperture in the head which is closed by Stephens after he gets inside and which will be air-tight and water-tight. The door, which closes it, is of metal.

On the inside there is a tiny stop cock which he can easily turn. It is designed to let him know where he is. If he is under water, a thin stream will pour in, which he can instantly shut off. If the barrel is floating on the surface, fresh air will come in. The bottom of the barrel is weighed so that when it is in the water it will tilt at an angle. This will mean that Stephens' head will be in a position considerably higher than his feet and will thus add to the comfort of his stay inside.

"I am not in the least bit nervous about my coming attempt," said Stephens. "You can tell Americans that I will shoot Niagara and come up smiling just as you saw me smiling from inside the barrel just now."

COUPLE RETURN TO KEMMERER

Girl Tells Story Leading Up to Events That Got Her in Jail

Mrs. H. K. Soaper of Salt Lake, and L. "Dutch" Miller, also of Salt Lake, alleged to be an ex-convict, were left in custody for Kemmerer, Wyoming, last night to appear on a grand larceny charge. Mrs. Soaper and Miller are alleged to have stolen a quantity of goods from a furnished house which the girl had rented.

The girl, not yet 20 years old, told the reporter a portion of her life's history. It appears that when 15 years old, she was obsessed with a desire to go on the stage. Representing herself as 21, she signed a contract with a vaudeville company, and was forced to return home by her parents, who placed her in the industrial school at Ogden.

The eighteen months that I spent at the school taught me more ways of the world than I had dreamed existed.

During the past six or seven weeks the girl said she had been in trouble constantly. Arrested for vagrancy in Salt Lake, she jumped bail and a bench warrant was issued. She departed with a girl with whom she was arrested for Evanston, Wyo., where the two obtained employment as waitresses in a 49 show at a carnival. She said that she was given a percentage on soft drinks which her partners purchased. It was while working at a carnival that she met Miller, who she said, had fled from Salt Lake following a theft which he is alleged to have committed.

As Kemmerer, she rented a furnished house, working at the carnival. Miller, the girl claimed, robbed the house of furnishings, silverware and other articles, valued at about \$500. She did not know that the property had been stolen until she returned.

In the mean time, the girl's husband, whom she had left about six weeks ago, effected a reconciliation. The girl made arrangements to return, and assisted Miller in expressing the goods to Ogden. Upon arriving here, she registered at a hotel, while Miller, who arrived at a different time, sought lodgings at a different hotel. The girl then went to Salt Lake, and with her husband and her brother-in-law, returned to Ogden to obtain a suit case loaded with her personal belongings. The three, together with Miller, were arrested Friday night at 8:19 o'clock.

The girl's husband, and her brother-in-law, were released when it was found they had no connection with the crime.

The arrest were made by Detectives W. H. Taylor and Everett Noble.

College Men Try to Walk Across U. S.

James Burns, 18 years old, and Peter LeGlaire 21 students of Cornell University who are making a trip in a Western, from New York to San Francisco, arrived in Ogden today with blisters on their feet. The hikers were disgusted with things western in general, saying that farm houses were not close enough together for a person to get a drink of water. The boys entertained an especial distaste toward the state of Wyoming, saying that the sagebrush and the wind had nearly driven them wild.

High Coach Making Wedding Preparations

Clarence Douglas is a busy man these days. Pep, the former Ogden high school mentor is about to be married. The knot will be tied Wednesday, the bride-to-be being Miss Della Tracy.

"Gee, there are a million and one things to do in preparing for a wedding," said Doug, and a fellow never knows what is left undone until after the plans are clear and the arrival of the date is near at hand. But, at that it is the greatest step in life.

Douglas was one of the greatest athletes ever developed at the Ogden high school and University of Utah and stated yesterday that he would locate in Salt Lake after the ceremonies are performed. He has accepted a position with the Board of Fire Underwriters.

ELDRIDGE BACK FROM CHICAGO

Harding Nomination Viewed With Satisfaction, Says Ogden Delegate at Large

After attending the Republican convention in Chicago as a delegate at large from Utah, J. U. Eldredge, Jr., accompanied by Mrs. Eldredge, returned to Ogden yesterday after an extended tour of the east following the close of the convention sessions. Mr. and Mrs. Eldredge visited at New York City, Washington, D. C., Detroit, Mich., Chicago and Denver.

As secretary of the Utah delegation during the convention and delegate at large, Mr. Eldredge voted for Warren G. Harding the nominee for president on the last three ballots taken. He also supported Governor Coolidge for vice president.

Mr. Eldredge said that generally throughout the east the nomination of Harding and Coolidge was viewed with satisfaction and appealed to the sound common sense and patriotism of calm thinking Americans who believe in equal rights to every citizen and who respect the law and the maintenance of order in the control of government.

Weber Gym to Have Crack Running Track

Local track and field athletes are rejoicing according to Malcolm Watson, coach of athletics at Weber Normal, due to the fact that the new Weber gymnasium will have a first class indoor running track when completed, as well as other up-to-date features.

The track will be one of the largest in the state, and when completed, will be used for indoor events during the winter months. Present plans call for a 12-lap track to the mile.

Work on the new gymnasium is being rushed and the pouring of concrete for the walls is scheduled to start next Monday.

Work on the new cafeteria is being started until the new shop is finished, according to Watson. However, the work on the cafeteria is expected to be completed by the time school opens next fall.
